(54) Title: IDENTIFICATION METHOD OF APPARATUS TO BE RECALLED AND HEATING METHOD

(57) Abstract: A method for identifying apparatuses to be recalled that enables identifying the locations of the products to be recalled, the method including: collecting steps (S2 and S4) of collecting the information items stored in IC tags from the apparatuses with the IC tag via a communication network, a checking step (S6) of checking the information items collected in the collecting step with the information items related to the apparatuses to be recalled, and an identifying step (S8) of identifying the apparatuses to be recalled in the apparatuses with the IC tag based on the checking results.
